Vinyl Gloves

The thin, lightweight design has a natural feel for wearers and patients/clients alike. Premier vinyl examination gloves are easy to don and comfortable to wear for longer periods. The smooth surface creates minimal friction so they are ideal for close personal contact tasks in health care and beauty treatments where there is little risk of direct blood, bodily fluid contact or chemical contact.

- For single use only
- Standard cuff length
- Dispensing box

Size Guide by Palm Width:

- Extra Small:** Up to 80mm
- Small:** 70-90mm
- Medium:** 85-105mm
- Large:** 100-120mm
- Extra Large:** 120mm+

WVMGL08	Vinyl Powder Free Gloves Extra Large	100	£6.95

Blue Nitrile Gloves

Nitrile examination gloves provide a highly effective and durable barrier against blood/blood stained bodily fluids. Nitrile gloves provide good sharps puncture resistance and protection during tasks which may pull, stretch or twist the glove whilst in use. They provide excellent comfort, grip and tactile control with minimal hand fatigue.

- Suitable for type 1 allergy sufferers
- Single chlorinated
- For single use only
- Standard cuff length
- Dispensing box

Sterile Disposable Scalpels

Designed for single usage, fitted with a blade 10. This scalpel assists in maintaining hygiene levels as they can be incinerated after use. A must have for infectious cases. Swann-Morton sterile disposable scalpels, sealed individually in trays and boxed in units of 10. The sterile scalpels are individually packaged into a new transparent thermo formed tray providing improved product visibility and developed to assist in safe passing techniques. When peeling the packet the seal changes colour thus indicating if the integrity of the packet has been breached and assuring the user of sterility up to the point of usage.

Code	Description	Qty	Price
WVMSB01	Disposable Scalpels	10	£4.95

Coffins

LifeArt Coffins

LifeArt coffins and caskets are made using enviroboard patented clean coffin technology. LifeArt products are fully functional and perform like a traditional coffin or casket, but because of their light weight, they use up to 80% fewer trees and produce up to 87% less greenhouse gas when compared to the full lifecycle of coffins manufactured from MDF or particleboard.

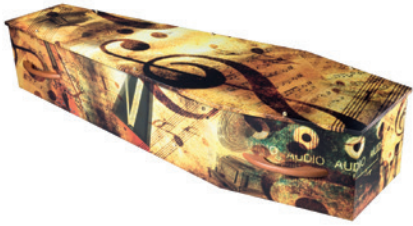

The enviroboard technology utilises materials made from wood fibre sourced from supplies accredited by sustainable forestry programs such as PEFC or FSC and contain a mix of virgin, recovered and recycled fibre.

About Us

To show care and compassion to others has always been a top priority in our family, - My Grandmother serving as a midwife at a top hospital in London, and my Grandfather serving the local community in Wiltshire as a Funeral Director, caring for the needs of others both young and old has been a family passion which has been passed down through the generations.

Our mission here at WVM is to provide a 100% trustworthy and reliable service to all our existing and future customers and build a lasting business relationship which is built up on principled core values.

We look forward to working with you.

Phil Smith | Director
